## Our Story....

Matriarch & Rogue Wines began in 2014 with a focus to create wines that are distinctly Clare Valley, championing its diverse sub-regions, leaning towards climate appropriate varieties and producing small batch wines of premium quality at great value. Our wines are created with balance, respect to the flavours and the land grown in the vineyard the fruit is sourced from.

We are always experimenting and creating new wine varieties and styles. Created in our own winery facility located in the historic town of Mintaro. Our respectful approach to winemaking means the wines are aromatic, approachable and balanced.

Numerous awards and accolades have accumulated throughout this time with support from industry peers, growers and wine writers. Ever evolving and always open to new ideas and concepts, Matriarch & Rogue wines continue to explore new wines and processes from around the world. We are members of the Sustainable Australia program and look to achieve certification in the next couple of years. Working with our growers to also become certified.

As the winemaker/owner, with nearly 30 years of experience in the wine industry, Marnie brings her passion and knowledge to all aspects of the operation. From concept to fruition, from cleaning to plunging ferments, from design to marketing. Supported by her husband, Matthew and 9-year-old son Oscar, the opportunities are endless.

Matriarch & Rogue is looking to partner with a like-minded, passionate and motivated company to grow together and keep the story moving and evolving alongside our vision.

I hope you enjoy our wines

A handwritten signature in black ink that reads "Marnie Roberts". The script is elegant and cursive, with the first letters of "Marnie" and "Roberts" being capitalized and prominent.
